

Butterfly-shaped laser diode mounting bracket

Overview

The underside of the mount houses a simple screw terminal wiring setup, with all wires color-coded, and the terminals clearly marked to make wiring the mount for your device as easy as possible. The 203 Butterfly Laser Diode Mount makes loading the laser quick with a zero insertion force socket. Simply set the laser into the socket, screw the device to the mount for passive cooling, and close the lead clamp to make the electrical connection. The lead clamps are removable for butterfly lasers with GPO or SMA connectors on one side and for e. If you are looking for a butterfly mount that includes active TEC cooling, take a look at the 205 TEC Butterfly LaserMount. Beyond the mount itself, the 203 works with our optional fiber tray, device cover, and fan base: The 200-TRAY fiber tray bolts directly to the top of the mount and makes fiber management simple. The 200-Ccover enhances the stability of the laser by minimizing the impact of ambient air currents. The 200-FAN fan base significantly increases the thermal. The laser driver and temperature controller connections are made through a DB-9 LDD and DB-15 TEC connector on the side of the mount, which allows for quick connections to any Arroyo Instruments controllers.

Article Content

Butterfly Laser Diode Mounts

The LM14S2 is a butterfly laser diode mount that also supports two-port devices and Bias-T connections. The LM14TS is an active, low-noise butterfly mount with

LDMOUNT-5A Butterfly Laser Diode Mount Datasheet

VERSATILITY Designed for 14-pin butterfly laser diodes with internal thermistors and Thermo Electric Coolers (TEC), the LDMOUNT is a laser diode mount with integrated heat sinking, and simple

Laser Diode Mounting Brackets Fixed & Multidirectional Mounting Brackets

MB1 MB6 Power Technology, Inc. offers a variety of high-quality brackets for precise mounting of your laser mod-ule. Our fixed and multidirectional mounting brackets provide an easy, secure means of

14-Pin Butterfly Packaged Laser Diode Mount; Pre

The model LDM-BUTTERFLY-X is a butterfly laser diode mount which ships fully pre-configured for your 14-pin packaged laser diode. There are models available to

Laser Diode Mount

Search Suggestions: Check the spelling of your keyword or search phrase. Try searching with different synonymous keywords. Broaden your search by using fewer keywords. Select an auto-suggested

7 and 13-pin Butterfly Laser Diode Mounts

Support: (877)835-9620 Mon.-Fri. 5am - 5pm PST Contact Us Investors Return Policy Careers Check Order Status Visa/MasterCard Accepted

Butterfly Laser Diode Mount

Butterfly laser diode mounts secure a butterfly packaged device while providing heat dissipation and electrical connection for the laser. Our butterfly mounts are designed with connectors for plug-and

Laser Diode Mounts

Laser Diode Mounts Optoprism and its partner offers a range of laser diode mounts for a large choice of laser diode packages. Fiber coupled laser diodes (Butterfly type

Laser Diode Control Electronics & Mounting Module for Butterfly ...

These fully integrated laser diode controller and mounting modules for butterfly packaged devices are designed for cost effective precision control of semiconductor lasers in research labs.

Butterfly Packaged Laser Diode Driver Units

Integrated Control Electronics & Butterfly Mount Module: 1.5 Amp Laser Diode Driver, 16W TEC Controller and 14-Pin Butterfly Mount 4-LEVEL Advanced Laser

LDMOUNT 5A Butterfly Laser Diode Mount -

VERSATILITY Designed for 14-pin butterfly laser diodes with internal thermistors and Thermo Electric Coolers (TEC), the LDMOUNT is a laser diode mount with

hsx-btf series — Home

The hsx-btf series of universal butterfly laser diode mounts is designed for use with lasers and other devices in a 14-pin butterfly package. These mounts have a fan-cooled heatsink with a heat

Butterfly Packaged Laser Diode Mount Heat Sink

This versatile laser diode thermoelectric heat sink and cooling module has been optimized for high power butterfly packages, and includes the BA-02 universal

14-pin Butterfly Laser Diode Mounts

LDM-4984 Series butterfly laser diode mounts provides a compact, easy-to-use solution for laser diode fixturing. Zero insertion force (ZIF) sockets and spring

LASER DIODE MOUNTS

The MOT_BTCK test sockets are designed to allow the user to quickly evaluate and implement a laser diode design based on the popular butterfly package. It

Universal 14-Pin Butterfly Packaged Laser Diode

This affordable butterfly laser diode mounting kit provides two rows of zero insertion force PCB headers that can be configured for any laser pin pattern. The contacts

DATA SHEET

BA-01 is prewired for standard pump laser pinouts to the 20-pin connector at the end of PCB, and provides reverse bias protection for laser diode. BA-02 routes all butterfly connections to the 20-pin

BTF100 Butterfly laser diode mount

Compact butterfly laser diode mount. Koheron BTF100 is a compact laser diode mount for 14-pin butterfly laser packages.

LDM-4984 Butterfly Laser Diode Mounts, ILX Lightwave

The LDM-4984 LD mount from ILX Lightwave offers industry standard 9 pin D-sub input connectors and also offers configurable pin designations to accommodate

Laser Diode and LED Mounts

Thorlabs' laser diode and LED mounts are compatible with various laser diode and LED packages including Ø5.6 mm, Ø9 mm, 14-pin butterfly, and 10-pin HHL, as well as laser diodes with fiber pigtails.

Butterfly Laser Diode Mounts (ALL TOP BRANDS)

BUTTERFLY LASER DIODE MOUNTS, from All Leading Manufacturers, Thorlabs, Newport, ILX Lightwave and More - Best Butterfly Laser Diode Mounts

hsx-btf series — Home

laser diode mount for 14-pin butterfly packages free layouts pre-configurable one type with external TEC laser on indicator LED The hsx-btf series of universal butterfly laser diode mounts is designed for use

Compact Laser Diode Mounting Bracket [CP-MB3]

Calpac Lasers Diode Modules Pointers and Levels Compact Laser Diode Mounting Bracket [CP-MB3] - The CP-MB3 provides a high level of directional adjustment in a simple, compact design. This

14-pin butterfly mount for laser diodes

Accepts 14pin butterfly packages in all configurations, including laser diodes, superluminescent diodes, and semiconductor optical amplifiers. Design optimized
