

Cable tray cover plate bolt fixing method

Overview

The joint plate is fastened with FRS M6 truss-head bolts and combination nuts. The exceptions to this are vertical bends, adjustable bend elements and fittings with a side height of 35 mm. These fittings can only be screwed on. There are five common ways to fix the cover plate of cable tray elbow supplier: pressing plate fixing, screwing fastening, clasping fixing, padlock fixing and seven-shaped buckle fixing. Cable ladder systems and cable tray systems shall be manufactured in accordance with BS EN 61537, channel support. The B-Line series Cable Tray Manual was produced by our technical staff. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to si osure, overheating or. Connecting cable trays correctly is essential for system safety, load stability, and long-term performance.
