

## Cameroon Ultra-High-Speed Optical Cable

### Overview

Cameroon's incumbent telecom operator, Camtel, has announced the deployment of an additional 3,500 km of fiber optic cable starting in 2024. Speaking about the project last October 17 during the Yaoundé Digital Week, MD Judith Yah Sunday said it primarily targets rural areas. The project was revealed by Judith Yah Sunday (photo, left), general director of the public company, on Tuesday October 17, on. MTN GlobalConnect and CAMTEL have joined forces to establish a strategic partnership that will see the commercialisation of four submarine cables in the West and Central sub-region of Africa. The partnership will improve connectivity in Cameroon and support the increasing demand for internet. National and international connectivity, secure data centres, and reliable interconnections for operators, businesses, and institutions. 24/7 performance, availability, and resilience.
