

Distribution Box YD

Overview

The product is designed and manufactured according to the communication industry standard YD / T988 and has the functions of optical cable lead in, fixing and stripping protection, optical fiber splicing and protection, pigtail storage, jumper management, optical fiber fixed. The product is designed and manufactured according to the communication industry standard YD / T988 and has the functions of optical cable lead in, fixing and stripping protection, optical fiber splicing and protection, pigtail storage, jumper management, optical fiber fixed. Pre-connectorized optical distribution box as the most advanced FTTX network distribution node equipment, provide quick and reliable connection, good protection and management for the FTTX network. The bottom shell and upper cover are welded by hot plate welding, which is not detachable. It is primarily used in FTTX access system terminals. The box is made from high-strength ABS, providing excellent sealing and anti-aging properties, suitable for outdoor wall, pole, or. A fiber optic distribution box is used to connect trunk cable and distribution cable for indoor and outdoor purposes., Each. Industrial Portable Socket Distribution Box, PD Series offered by China manufacturer ENGELEC ELECTRIC TECHNOLOGY CO. Designed for cable splicing, termination, and protection in indoor and outdoor optical node setups.
