

Fiber 1 meter long

Overview

Product Description This 1 meter (~3 feet) fiber optic cable is terminated with LC (Lucent Connector) connectors on both ends. It is a singlemode fiber (9 micron core) designed to transmit data across long distances at high speeds. 10 Gigabit speed from 5-10km at 1310nm and 30-40km at 1550nm. The cord is duplex (two fibers) which means it permits synchronous. Upgrade your network with our high-quality fiber patch cables, designed for lightning-fast speeds, reliability, and long-term performance. Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations. In Fiber Optic Communication Patch Cables, we have a 100 different varieties of Singlemode and Multimode cables that can be bought anywhere from 1 m to 15 m in length.
