

Fiberglass Explosion-proof Distribution Box

Overview

The explosion-proof distribution box safely delivers power in hazardous zones (oil, gas, chemical plants) with rugged, spark-resistant casing—ATEX/IECEX, IP66 certified for reliable operation in explosive environments. Horizontal DIN rail is mounted with embedded stainless steel nuts. Polyamide cable glands mounted in threaded entries ensure high ingress. Terminal boxes and junction boxes from Pepperl+Fuchs are designed to protect signal and power distribution networks in explosion-hazardous and challenging environments. Our products are certified for installation technologies all over the world.
