

How much does an industrial-grade PoE switch cost

Overview

The typical cost of an industrial PoE ethernet switch can range from \$100 to over \$5,000, depending on factors like port count, speed, PoE capabilities, environmental requirements, and advanced network management features. With this standardization, PoE quickly gained popularity, as it enabled a reduction in infrastructure costs, simpler installation, greater flexibility, and increased reliability. PoE + Ethernet switches are offered with 30W per channel. This guide will help you select the right industrial switch by focusing on three critical parameters: Along the way, we'll also touch on reliability, environment. Compact desktop/wall-mountable, professional-grade 8-port, Layer 3 Etherlighting™ PoE++ switch with (8) 10 GbE and (2) 10G SFP+ ports. Plug and play, quick deployment.
