

How to make cable trays flip up

Overview

This can be done with the free Revit MEP Fabrication extension. Use the rotate command to rotate the element vertically. Also, is it possible to place a new cable trays inverted in such a way that the bottom of the cable tray is upside?

I welcome any ideas or suggestions. However, Cable Trays do have certain limitations in that the channel shape can only be set to a horizontal aspect where the bottom edge runs parallel to its supports. Any suggestions?

A trick I sometimes do when I need a family to be able to be oriented. Sovelia Plant offers the ability to create cable trays, adding another level of detail and functionality to your plant models. 07-20-2016 09-10-2016. Elbow joint RVS is pushed inside the cable tray and attached with the included screw set.
