

In-stock optical distribution box with 12 cores

Overview

Product Description: The 12 Cores Waterproof Fiber Distribution Box allows for fast tower and FTTH deployments with IP68 protection, fully understanding the harsh conditions of outdoor deployments in all environments. Wall-mounted or pole-mounted installation is allowed. **Company Introduction:** E-PHOTICS Communications (E-PHOTICS) was established in July 2004 and is a technological enterprise specializing in the research and development, production and sales of optical communication devices. It is. The Fiber Optic Terminal Box is a kind of optical fiber management products used to distribute and protect the optical fiber links in FTTH Network. These units are available in sizes that fit the. This distribution box terminates outside optical cables with up to 12 fibers; it allocates 12 adapters for connecting with max 12 drop cable pigtails, it is also suitable for using with mini splitters. The box works under both indoor and outdoor environments.
