

Indoor and Carrier Grade Fiber Optic Patch Cords

Overview

Get low-loss fiber patch cables & cords with various connector options that support fiber optic cabling up to 400G. These are cables that are designed to meet both the rigorous environment of the outdoors but also can be routed indoors, where flame rating requirements also apply. This type of indoor outdoor cable eliminates the need for a “transition splice” to an indoor-rated cable when routing an outdoor cable. As networks move to higher speeds and higher density, choosing the right fiber optic patch cords becomes critical to the reliability of your system. Our extensive offering of fiber optic cables, connectors, cassettes, enclosures, patch cords, cable assemblies, cable distribution products and accessories deliver high performance, reliability, and scalability. When fast and stable internet service is a must, the Panduit outside plant fiber. Explore CommScope high-quality fiber patch cords, riser cables, and fiber jumpers. Enhance your network connectivity with our quality solutions. By the end, you'll know exactly which cable type — OS2, OM3, OM4, or OM5 — belongs in your specific environment.
