

Intelligent PDU Rack-Mounted Solution

Overview

Designed for data centers, server rooms, and IT setups, smart Power Distribution Units offer advanced features like remote monitoring, individual outlet control, power metering, and energy tracking. Whether that means speeding up Saturday installs or focusing on. See why the world's leading companies trust Raritan's PX PDUs to deliver reliable power to critical devices. And how these intelligent power strips improve uptime, save energy, and can be managed remotely. These systems enable outlet-level visibility, remote power control, and integration with monitoring platforms, supporting modern requirements for distributed. Eaton's rackmount PDU offering provides you with the power density and flexibility you require regardless of whether you're looking for PDUs for server racks or switching environments. Design your power solution using a variety of configuration options.
