

LED screen remote control power distribution box

Overview

30KW power distribution unit with 9 AC 220V output channels, supports manual and remote control via multifunction card. Features DIN-mounted breakers, IP44 rating, and supports LED display cabinet management. Explore high-quality power distribution boxes for LED displays. Our range of power distribution boxes is designed to support the seamless operation. Multi-function card power distribution cabinet adopts "step-by-step delayed power on" to avoid the instantaneous impact of large loads on the power grid, effectively protect the electronic components of the display body and prolong the service life of the display, with the use of multi-function. The LED display screen is powered by a large number of switching power supplies and belongs to capacitive loads. When the LED screen is started, due to the charging characteristics of the capacitor, the instantaneous current is extremely large, so it is very easy to impact the power grid, which may. 600KW PLC distribution cabinet The PLC intelligent power distribution box is equipped with PLC as the interlligent control unit along with monitoring sensors to reslize the external environment monitoring and real- time control of abnormal conditions. It silently manages the critical flow of electricity, ensuring brightness, stability, and longevity for screens ranging from small indoor panels to massive outdoor video walls.
