

Lightweight Multi-Layer Fiber Optic Cable Laying Stand

Overview

The Fiber Splice Stand is a portable support stand designed to hold fiber closures when performing splicing duties with the Fiber Optic Splicing Workstation. The body is made of high-strength metal material, which is impact resistant and wear-resistant, ensuring long-term use in harsh outdoor. Royal IHC's portfolio of fibre optic cable lay equipment is designed for a range of projects, from long transoceanic installations to deep water repair and maintenance operations. The Foss cabinets are produced in black. Popular on Alibaba. order: 1 set) Customized packaging (+ from /Min.
