

Making a box using a cable tray

Overview

Build a DIY cable organizer, cable management box. This video provides you with the plans, my cut list, as well as the materials and tools I used. Inside the box you can hide cords and cables as well as mount a power strip (a surge protector is recommended), and even a network. Follow this simple step-by-step guide and make a cable management trough from recycled wood. It's designed for easy and versatile use, and it fits on the back wall beneath your computer desk (to keep all the cables off the floor). more. From using a cable tray to creating a simple box system, these tips offer practical solutions for hiding cords. It is a common challenge to deal with multiple devices that need daily charging—from smartphones and. In just a few steps, you can easily create your own cable box. Start your project by choosing a design. There were some other DIY solutions that were cheaper, but I also wanted a more elegant look, since this it would be hig.
