

Price of ribbon optical cable hot melt machine

Overview

Pricing: We offer this high-spec unit at approximately 560 RMB (tax included). **Value:** You get flagship specifications (higher temp range, bigger battery) for a mid-range price. Introducing the MY0224 Optical Fiber Ribbon Making Machine - a high-precision, fully automated cable manufacturing solution engineered for next-generation optical fiber production. Constructed with industrial-grade alloy steel and advanced extrusion modules, this machine supports continuous fiber. Check each product page for other buying options. with adjustable cutting lengths ranging from 9 16mm for 0. 9mm fibers it offers unmatched flexibility for various fiber optic cable. Fiber Optic Fusion Splicer Full Set Hot Melt Machine Fully Automatic Fusion Splicer 1) Factory with ISO9001:2015 quality management system. 2) Strict quality control process from materials to finished products and package. 3) Vibration testing for every fusion splicer (3 hours). 4) Splicing loss. Application for Cable Ribbon Hot Foiling Printing Machine With Meter Counting: The machine is suitable for wire, cable, PVC/PU/PE tubes and other surface printing with extruding machine, the machine of its type is passive thermal printing type, the meter accuracy, reliable performance, writing. Delivery time is estimated using our proprietary method which is based on the buyer's proximity to the item location, the shipping service selected, the seller's shipping history, and other factors. Seller does not accept returns.
