

Standard Maintenance Standards for Display Cabinets

Overview

UL 970, part 2 requirements are equivalent with UL 65, the Standard for Wired Cabinets, which is commonly used to evaluate showcases, with revised requirements to be consistent between the parts. During this time, displays have undergone many innovations such as embedded computers, motion and LED lighting. In addition, displays are developed and manufactured for a shorter life cycle to keep retail shelves. In line with the recommendations of stakeholders and members of the Standards Technical Panels, a new Standard combines UL 65 Standard for Wired Cabinets and UL 962, the Standard for Household and Commercial Furnishings into a single, streamlined standard with modernized requirements and. International Organization Standardization) is a worldwide committee organizations, gov rnemental an technical been bodies). The work non-governmental, t of e preparing International interested in federation a a ds is normally for which of national standards coll b rates. Documents sold on the ANSI Webstore are in electronic Adobe Acrobat PDF format, however some ISO and IEC standards are available from Amazon in hard copy format. Some PDF files are protected by Digital Rights Management (DRM) at the request of the copyright holder. These cabinets enhance product visibility and ensure a clean, organized shopping environment. Regular maintenance becomes essential to address. This 6-month planned preventive maintenance checklist is designed for retail display cabinets, covering critical refrigeration and operational checks. It guides technicians to verify case temperature and probe accuracy, inspect and service evaporator fans, secure mounts and panels, clean air return.
